1. Coherent Interface

1.1 Landing Page

This is the landing page for users. It serves as the starting point for navigating the application, providing options to access as a customer or administrator.

Figure 1: Puff Lab Application Landing Page for Users

2. User View

2.1 Sign Up Page

This page allows new users to create an account by providing their email, and password. Once registered, they will be redirected to login page to access the application.

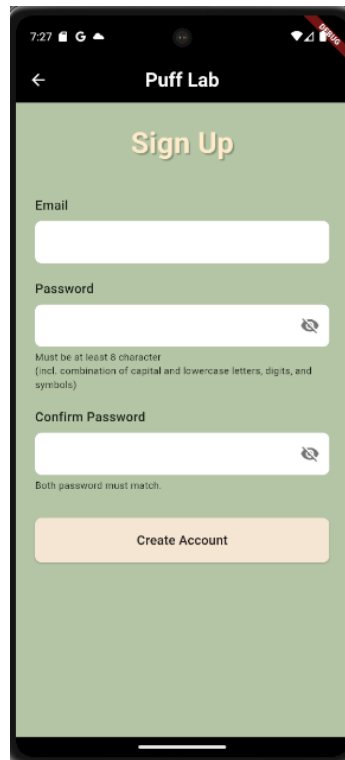

A mobile application interface for a 'Sign Up' page. The header is dark green with a back arrow and the text 'Puff Lab'. The main title 'Sign Up' is in a light green font. Below the title are three input fields: 'Email', 'Password', and 'Confirm Password'. The 'Password' field has a small eye icon to its right. Below the 'Password' field is a small text note: 'Must be at least 8 character (incl. combination of capital and lowercase letters, digits, and symbols)'. Below the 'Confirm Password' field is another small text note: 'Both password must match.' At the bottom of the form is a light green button labeled 'Create Account'. The background of the form is a light green color.

3. Administrator View

3.1 Admin Log In

Figure 18: Admin Sign in Page

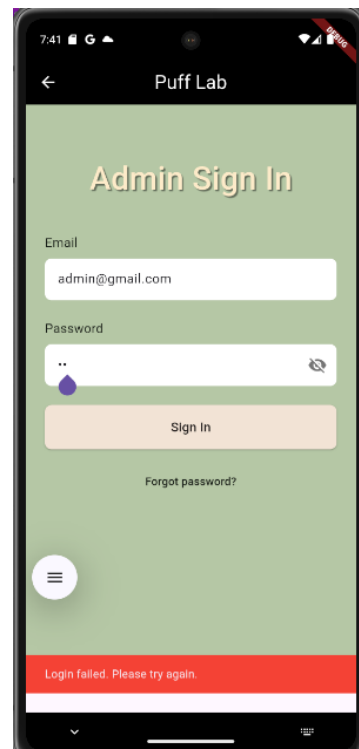

Figure 19: Invalid Admin Credentials Page

The admin log-in process ensures that only authorized personnel can access the system. To log in, the admin must navigate to the login page and enter their username and password in the designated fields. Once the credentials are entered correctly, the admin should click the Login button. If the login is successful, the admin will be redirected to the Admin Main Page. In case of a failed login, the admin should double-check the entered details and try again to ensure accuracy.

3.2 Admin Main Page

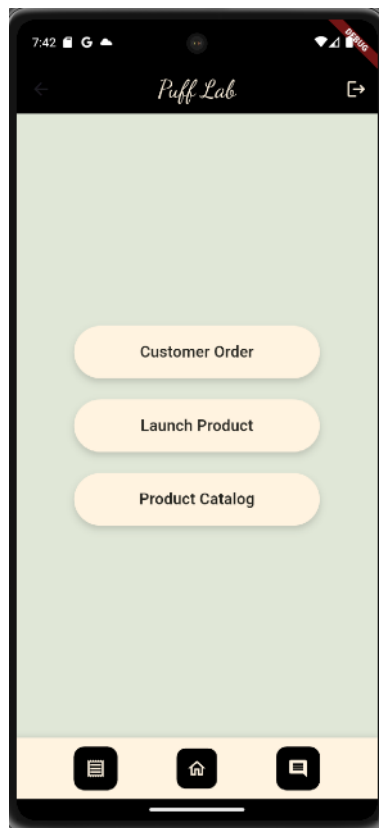

Figure 20: Admin Main Page

The Admin Main Page providing easy access to all the key sections. After successfully logging in, the admin will land on the Admin Dashboard, where they can navigate to various pages such as the Product Catalogue Page, Order List Page, and Customer Feedback & Reviews Page.

3.3 Product Catalogue Page

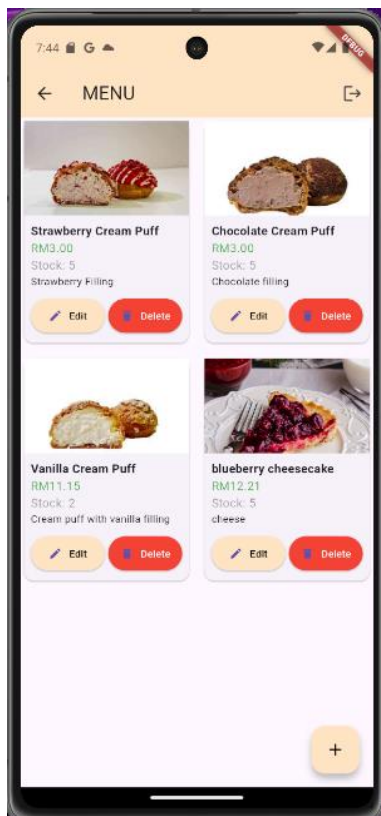

Figure 21: Product Catalogue Management Page

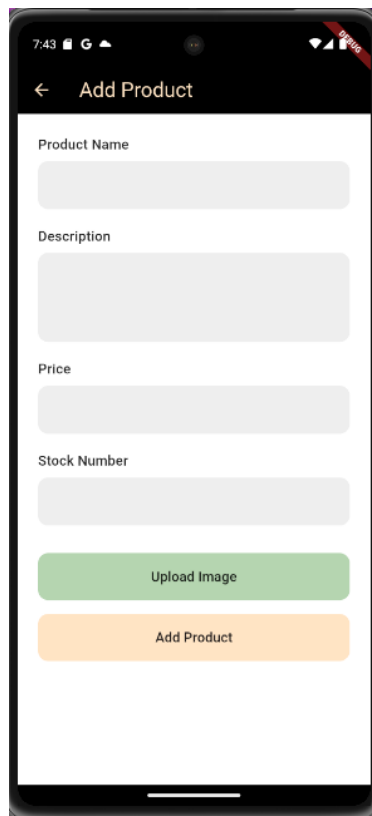

Figure 22: Add New Product Page

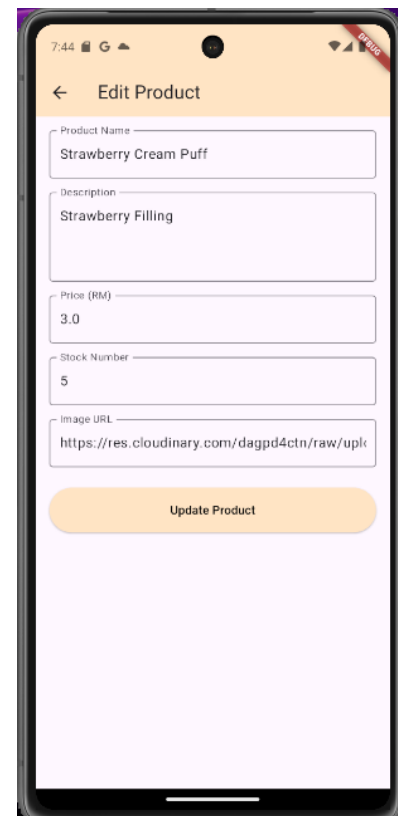

Figure 23: Update Product Page

The Product Catalogue Page is where the admin can manage the products listed in the system. From the Admin Main Page, the admin can easily access this section, which presents a list of all products along with details such as product names, descriptions, prices, and images. The admin can add new products by filling in the product details and saving them to the system. If there are any changes required, the admin can update the details of existing products and save the modifications. In addition, products can be deleted by selecting the item and confirming the deletion.

3.4 Order List Page

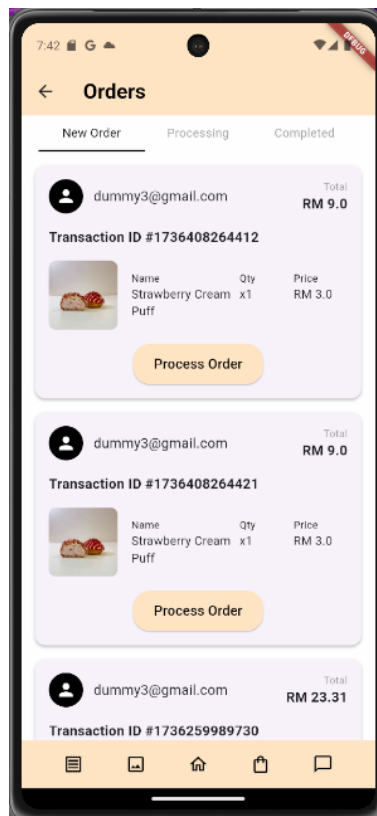

Figure 24: Order Management Page

The Order List Page allows the admin to view and manage customer orders. After navigating from the Admin Main Page, the admin can access a list of all customer orders, which includes details such as the order ID, customer name, items ordered, and the status of each order. The admin can update the order status by selecting a particular order and choosing the new status from a dropdown menu. The available statuses include options like "Pending," "Processing," or "Completed," enabling the admin to track and manage order progress.

3.5 Customer Feedback & Reviews

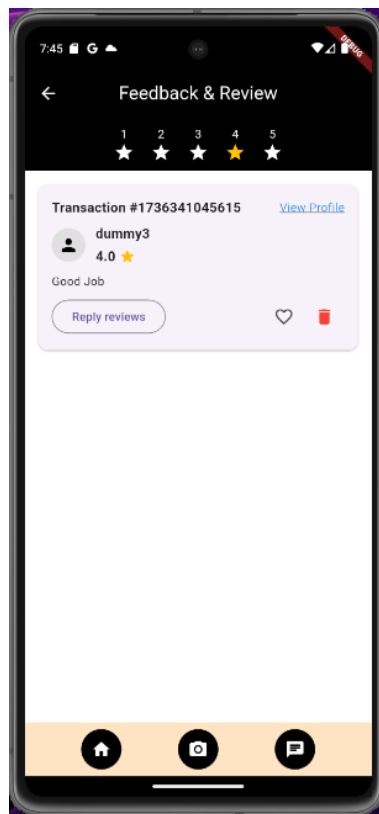

Figure 25: Customer Feedback & Review Management

The Customer Feedback & Reviews Page enables the admin to view and manage customer reviews and feedback. From the Admin Main Page, the admin can easily navigate to this section, which displays all customer feedback with relevant details such as the customer's name, review text, and any ratings given. If necessary, the admin can delete any feedback or review by selecting it and clicking the Delete button, allowing for efficient management of customer interactions.
